## HB280 (HD2666) - An Act relative to greywater recycling

### Sponsor

Rep. Josh S. Cutler (D)

### Summary

Enacts a new section into the General Laws defining and regulating greywater recycling systems (those reusing certain wastewater for irrigation purposes); defines Tier 1 and Tier 2 systems; sets forth standards for labeling and integration of wastewater systems. NOTE: This bill references a number of state regulations, which are subject to changes made by bodies other than the Legislature.

## HB318 (HD2081) - An Act relative to toxic free kids

### Sponsor

Rep. Jim Hawkins (D)

### Summary

Amends GL Chapter 21A (Department of Environmental Protection) to prohibit sale of children's products containing PFAS; directs department to develop list of chemicals of concern in children's products and requires manufacturers to notify department if their products contain more than a specified level of such chemicals; imposes reporting and publication requirements on department with respect to chemicals being used in children's products.

## HB764 (HD1033) - An Act incorporating embodied carbon into state climate policy

### Sponsor

Rep. Michelle Ciccolo (D)

### Summary

Adds a new section 12 in GL c.21N (Climate Protection and Green Economy Act) that requires the Massachusetts State Climate Chief to establish an Embodied Carbon Advisory Board, and sets forth the requirements for membership. The Office of Climate Innovation and Resilience is to provide staffing support and funding to the Embodied Carbon Advisory Board, including sufficient funding for administration, research, legal assistance, public outreach, publications, a public website, consulting and other functions. No later than 1 year after the formation of the Embodied Carbon Advisory Board, the Massachusetts State Climate Chief, in consultation with the Embodied Carbon Advisory Board and the department, is to submit a report to the House and Senate detailing the best policy mechanisms to measure, monitor, and reduce embodied carbon across all building types in the Commonwealth. For purposes of this bill, “embodied carbon” is the carbon dioxide and carbon dioxide equivalent emissions associated with materials and construction processes throughout the whole lifecycle of a building or infrastructure.

## HB776 (HD1439) - An Act reducing packaging waste in the Commonwealth

### Sponsor

Rep. Josh S. Cutler (D)

### Summary

Adds several new sections to GL Chapter 21A outlining provisions for the sustainable packaging of consumer goods sold in the Commonwealth; requires businesses to register with the Department of Environmental Protection annually and develop a program plan for the collection and recycling of post-consumer packaging; establishes a Sustainable Packaging Advisory Board and a Sustainable Packaging Trust to assist businesses and the Department in implementing these requirements.

## **HB794 (HD3015) - An Act of leadership by the state of Massachusetts to reduce single use plastics**

**Sponsor**

Rep. Dylan Fernandes (D)

**Summary**

Amends GL 7 (Executive Office for Administration and Finance) to direct the operational services division, in consultation with the department of environmental protection, to promulgate regulations to establish a process and develop criteria for determining the types of food service products that are reusable, recyclable, compostable or biodegradable; lists criteria for the division to consider in determining whether such product is reusable; further directs the division to develop a list of approved types of reusable, recyclable or compostable food service products to be used by food service facilities and to publish the list on its website; prohibits such facilities from dispensing single-use disposable bottles containing water or soda, or single-use plastic bags; establishes procedures for implementation of this Act.

## **HB814 (HD930) - An Act empowering towns and cities to protect residents and the environment from harmful pesticides**

**Sponsor**

Rep. Carmine Gentile (D)

**Summary**

Amends GL 132B:1 (Massachusetts Pesticide Control Act) to allow cities and towns to adopt ordinances and by-laws that regulate, restrict or prohibit the use and application or disposal of pesticides within the city or town that are more stringent than the standards and restrictions established by this chapter; excludes the transportation of pesticides from these provisions.

## **HB833 (HD1705) - An Act establishing the commission on extended producer responsibility**

### **Sponsor**

Rep. Bradley H. Jones, Jr. (R)

### **Summary**

Establishes an 11 member special commission on extended producer responsibility to study and report on implementing extended producer responsibility laws in the Commonwealth; articulates the qualifications of the commission members; directs the commission to research, evaluate and develop recommendations regarding the economic, environmental and public health benefits and costs of extended producer responsibility laws related to the manufacture and post-consumer management of products including the following: leftover paint, electronics, pesticides, household batteries, fluorescent lamps, phone books, carpet, medical sharps, consumer packaging and printed materials, pharmaceuticals, tires and mercury thermostats; directs the commission to research and make recommendations regarding the establishment of a statewide policy structure for product stewardship; requires the commission's report to include summaries of the following: (1) the existing infrastructure for managing post-consumer materials and the need for improvements to make this infrastructure convenient for the public; (2) the need for public education to reach target populations; (3) the need for incentives to change consumer behavior; (4) the current extended producer responsibility laws and pending extended producer responsibility legislation in other new england states and around the country; (5) the common elements of extended producer responsibility laws; (6) the opportunities to maximize the efficiency of extended producer responsibility programs by coordinating with other states in the region; and (7) the methods for evaluating the effectiveness of extended producer responsibility programs; requires said report to be filed with the Administration and the legislature within one year of the passage of this Act.

## HB857 (HD3265) - An Act to reform the Toxic Use Reduction Act

### Sponsor

Rep. John J. Mahoney (D)

### Summary

Modifies several components of toxics use reduction plans under the Toxic Use Reductions Act (GL Chapter 21I); amends the reporting submission and recertification requirements for large toxics users, by limiting reports to once every 6 years or when a new toxic substance is used; extends the certification of toxic use reduction planners from 2 years to 6 years, with renewals every 6 years; limits continuing education for the initial recertification and license renewal of toxic use reduction planners who also passed the uniform exam, to 45 hours; limits continuing education for the initial renewal and recertification of toxic use reduction planners who have not passed the exam and who work only for their employer to 36 hours; reduces the continuing education requirements for subsequent renewal and recertifications to 36 hours and 30 hours respectively; exempts the use of toxic substances mandated by law from the toxic use fee.

## **HB863 (HD389) - An Act relative to proper disposal of products containing PFAS**

### **Sponsor**

Rep. Leonard Mirra (R)

### **Summary**

Adds a new Section 243 to GL Chapter 111 (Public Health) to direct the Department of Environmental Protection (DEP) to outline the best practices and recommended regulations for the proper disposal of products containing per- and polyfluoroalkyl substances; further directs DEP to review known locations of such substances and: (i) create response plan strategies; (ii) identify the sources of such contamination and exposure pathways that pose the greatest risk to public health and the environment; and (iii) examine and estimate the cost to mitigate the contamination.

## **HB880 (HD935) - An Act to improve the review and regulation of emerging contaminants on public water systems**

### **Sponsor**

Rep. Ted Philips (D)

### **Summary**

Amends GL 111:160 (Department of Public Health examination of water supply) to establish the Science Advisory Board; provides that Board's mission is to address the potential for adverse human health impacts from the presence of potentially toxic substances in public water supplies, and to establish science-based procedures for assessing the risks presented by such substances and a cost-benefit analysis to determine the practicality and efficacy of operational and remedial actions with respect to the substances; specifies membership of Board and procedural rules governing Board's activities; establishes Small Business Advocacy Review (SBAR) to review any proposed drinking water standard and to make an independent determination whether the proposed standard will achieve the objectives of protecting human health, including sensitive sub-populations, in a more cost-effective manner, or with greater net benefits, than other regulatory alternatives.

## SB560 (SD1732) - An Act establishing tracking and reporting requirements for Massachusetts transportation fuels and associated greenhouse gas emissions

### Sponsor

Sen. Marc R. Pacheco (D)

### Summary

Directs DEP to promulgate regulations to require all parties involved in the supply chain to report all Massachusetts transportation fuel sales and the source of said fuel to the DEP. The DEP is then directed to track the greenhouse gas emissions of all fuels as well as the carbon density. The annual report is to be published and made available to the public.

## SB572 (SD539) - An Act to save recycling costs in the commonwealth

### Sponsor

Sen. Michael F. Rush (D)

### Summary

Adds 16 new sections to GL Chapter 94 (inspection and sale of food, drugs and various articles) requiring and regulating the implementation of packaging and paper products programs in order to reimburse municipalities for recycling and waste management costs; requires producers of covered materials sold and distributed in the commonwealth to establish producer responsibility organizations to act as their agent in operating packaging and paper products programs; defines covered materials as any packaging material or paper products, regardless of recyclability or compostability, sold, offered for sale, or distributed to consumers in the state, including through the internet; exempts producers earning less than \$1,000,000 in the prior calendar year. Requires producer responsibility organizations to act as an agent for all producers within a category or categories of covered materials; regulates the operation of such organizations; requires organizations to submit plans to the department of environmental protection for approval within 8 months; details plan requirements,

including promoting proper end of life management for covered materials, litter prevention, recycling instructions, outreach to promote recycling and reuse, free and convenient consumer access to collection services, proposed post-consumer recycled material contents, auditing of program effectiveness, and distribution of funds to participating collectors. Authorizes producers to establish alternative collection programs which offset payment obligations under packaging and paper products programs; regulates collector reimbursement calculations and disbursements; directs the department of environmental protection to establish rules and regulations pertaining to the operation of producer responsibility plans; establishes and regulates the use of the sustainable packaging trust for implementation and administration of the packaging and paper product program or an alternative collection program.
